

Cranborne Middle School

Dorset

May 2020

Dear future friend in year 4,

I hope you are ok and are not too nervous about going to middle school. I remember my first day at middle school. I didn't know where to go and there were lots of new people that I didn't know and I was a bit scared at what they would be like but look at me now! I know everybody in my class and know where to go. I know all my teachers and I'm used to them.

If you're a bit nervous that is totally natural. Everyone is usually nervous on their first day. The thing I was most excited about in middle school was making new friends. The first friend I made was someone called Katie and she is a very good friend to me.

I hope you have read this letter carefully and I hope that you have an amazing time at middle school!

From

Evie
