

Cranborne Middle School

Curriculum Overview

Y5 Summer Term

Co			

English

Poetry and Prose

We begin the summer term looking at a variety of poetry forms, before finally settling on the dramatic narrative poem: The Highwayman. We will study the poem in detail and then the pupils will create an exciting narrative inspired by the poem. The children will learn all about how language is used to create effects and to show character, and will use their new skills when writing their own stories.

Performance

To complete the children's first year at CMS, we will focus on the classic play: A Midsummer Night's Dream. Shakespeare's narrative influence will encourage us to perform the play, using the different personalities of each character, culminating in some very traditional outdoor performances. All our English skills learnt this year will help us to understand the complexities of the play, and how context has an impact on performance.

Maths

Measurement

Children will be taught to convert between metric units and use approximate equivalences between metric and imperial units. On the subject of conversion, they will also learn to convert between units of time. Measurement lessons will also teach children to calculate and compare perimeters, areas and volumes of shapes.

Statistics

Children will develop their understanding of data presentation by solving comparison, sum and difference problems using information presented in a line graph. They will also complete, read and interpret information in tables, including timetables.

Science

Circle of life

In this topic, pupils look at the life cycles of various species including mammals, amphibians, fish and birds. Pupils also look at and describe the life process of reproduction in plants and animals.

Growing old and growing up

In this topic, pupils look at and describe the changes as humans develop to old age. Pupils draw a timeline to indicate stages in the growth and development of humans and learn about the changes experienced in puberty.

Foundation s	subjects
Art	Exploring Art
	The aim of this project is to allow pupils to experience the work of a range of different artists through
	learning about their life and work and creating outcomes inspired by their most famous pieces. These
	outcomes are produced individually, in pairs and collaboratively in groups.
Computing	Creating media - intro to vector graphics
	Vector drawing: Creating images in a drawing program by using layers and groups of objects.
	Programming B - Selection in quizzes:
	Exploring selection in programming to design and code an interactive quiz.
Design	Textiles: Plastic Pollution
Technology	Pupils learn how to use tie-dye and block printing to decorate fabric. They learn to cut fabric accurately, pin,
	tack and use the sewing machine to create a bag. They will also complete their sewing machine 'driving
	licence'.
French	What do my family do? - "Quels sont les loisirs de ma famille?"
	Students recall leisure vocabulary and consolidate by discussing what members of their family like to do.
	Extension is be given through description and comparison in the third person. Negatives and opinions are
	reinforced.
	How is my family unique? - "Comment est ma famille unique?"
	Students analyse how their family is unique by giving information about their family compared to families in
	France and other Francophone countries. They use the first and third person in a variety of contexts.
Geography	Settlement KS2
Geography	Pupils will carry out fieldwork of the local area and explain land use and demographics. This will be
	compared to a study of London and why London has thrived as our capital. They will then compare
	Cranborne to London and discuss why different settlements are successful.
History	Archaeology and Ancient Technology
riistory	By looking at artefacts and "pre-historical" sources, students will learn how people used to live and compare
	their world to our own.
Music	Pictures at an exhibition
Music	
	Through exploring the famous music by Mussorgsky, pupils will learn about the key elements of music. They
Dhusiaal	will also compose their own music to reflect different pictures.
Physical	Athletics Children are introduced to the quanta sourced in outdoor othletics. Focus will be on the students properly.
Education	Children are introduced to the events covered in outdoor athletics. Focus will be on the students preparing
	for the events covered in sports day and town sports:
I
